Polycarbonate globes with high protection rating.

internal roads and courtyards

▶ PLACE RANGE

SHIELDED GLOBES FOR URBAN AREAS WITH MULTIPURPOSE POLE

**EXCLUSIVE
MULTIPURPOSE POLE**

HIGH RESISTANCE TO CORROSION

To protect the pole, Alodine 1200 chromate treatment is carried out before painting.

SAFETY

Thanks to its particular shape, the pole does not have to be drilled for feeding lighting elements and accessories.

MAXIMUM FLEXIBILITY

Thanks to a special adapter, the patented pole can be used as a support for external equipments: road signs, TV cameras, baskets, etc.

Emergency lighting systems
